

Dear Equator Exploration Shareholder,

### **Equator Exploration Limited Shareholder Update**

Further to our previous email we write to remind you of the conference call taking place at noon GMT on Monday 25 March 2019. The purpose of the call is to update shareholders on operational activities.

Dr Alex Irune, Director of Equator Exploration Limited and also Chief Operating Officer of Oando Energy Resources, will represent the Company.

We will use our usual successful format. After introductions and an update from the Company, we will take questions from the leaders of the Shareholders Liaison Group. They will previously consult with interested shareholders to form a structured list of questions. We do this, firstly, to cover the ground in an efficient manner and, secondly, to reduce the background noise that would occur if we kept 50 or more lines open.

Towards the end of the 45 minute call, the floor will be opened so that anyone can ask any outstanding questions.
